Passepartouts and cornices

Passepartouts and cornices are also available to order as extras for the wardrobes. Full passepartouts are available for the sliding door wardrobes. With the hinged door wardrobes, you can choose to mount only cornices or, with additional side uprights, also passepartouts. Shelves can be installed with a depth offset, but the cornice can still remain flush with the front. Please note that corner robes with cornice are only possible between hinged door wardrobes (not possible with sliding door wardrobes!). Passepartouts are generally not possible between wardrobe units and on corner robes.

Combination examples and space required for corner robes in combination with hinged- and sliding door wardrobes

Essensa's sliding- and hinged door wardrobes can also be easily combined across corners thanks to the two corner robe variants available (90° corner robe and 45° corner robe). Please note that the space required and the overall dimensions of the wardrobes will vary depending on the selected wardrobe combination and arrangement (see example sketches below).

Mounting options for sliding door wardrobes with hinged-door and corner robes

The Essensa wardrobe range offers you the possibility of arranging all robe units in whatever combination you wish. However, if a hinged-door robe or corner robe is attached to a sliding-door robe, a compensating profile must always be mounted between them to ensure that the doors can be opened without any problems.
